

AI TECH FORUM ZIMBABWE 2026

Engineering the Future: Mastering Next-Generation AI Systems in Practice at Scale

 **Venue:** Urban Lifestyles Hotel & Conferencing, Zimbabwe

 **Dates:** 16-17 June 2026

 **Hosted by:** Artificial Intelligence Institute Africa (AIIA) & Zimpapers

The AI Tech Forum Zimbabwe 2026 brings together **AI engineers, technology leaders, researchers, policymakers, and innovators** to explore approaches to building and deploying AI systems in Africa.

The forum focuses on **AI infrastructure, enterprise AI systems, software engineering, cybersecurity, and real-world applications across key economic sectors.**

PROGRAM HIGHLIGHTS

- 11 Technical Presentations
- 2 Live Engineering Demonstrations
- 2 Expert Panel Discussions
- 2 Keynote Addresses
- Zimbabwe AI Builders Challenge

TECHNICAL TOPICS

AI Infrastructure & Systems Engineering

1. Engineering AI Systems Under African Constraints
2. AI Infrastructure Engineering: Compute, Storage & Distributed Training Systems
3. Efficient AI Systems: Optimization, Quantization & Edge Deployment

AI Data & Knowledge Systems

4. Data Readiness for AI: Building Clean and Sovereign Data Systems
5. Retrieval-Augmented Generation (RAG) at Scale

AI Engineering & Software Development

6. Designing Agentic AI Systems for Enterprise Automation
7. AI System Performance, Observability & Reliability Engineering
8. MLOps & Continuous Training Pipelines for Enterprise AI
9. AI-Native Software Development: From Code Assistants to Autonomous Dev Agents

AI Applications & Security

10. AI Applications for Agriculture & Climate Resilience
11. Cybersecurity for AI Systems & National Digital Infrastructure

LIVE ENGINEERING DEMONSTRATIONS

- Demo 1: Building an Agentic AI System
Demo 2: Running an Open Source LLM Locally

ZIMBABWE AI BUILDERS CHALLENGE

Participants collaborate to develop practical AI prototypes addressing real challenges using open-source tools and local datasets. Winning teams will present their solutions during the closing session.
