

AI Certificates & Diplomas Summit Launch Plan

Objective

Launch the AI Institute Africa Certificates and Diplomas at the 2026 AI Summits as a practical skills pathway for students, professionals, executives, and institutions.

Launch Concept

Position the programmes under one clear brand, for example:

AIIA AI Academy

Building Practical AI Skills for Zimbabwe's Future Economy

The launch should show that AiiA is not only hosting AI conversations, but also creating structured training programmes that help people and organizations adopt AI in practice.

Proposed Summit Activity

Include a short official launch segment in the summit programme or at dinner:

- 5 minutes: Opening remarks by AIIA
- 5 minutes: Introduction of certificates and diplomas
- 3 minutes: Announcement of first intake and registration process
- 5 minutes: Photo opportunity and media moment

Entertainment Element

To make the launch memorable, include a short entertainment segment immediately after the official launch.

Recommended options:

- A live band during networking or dinner
- A well-known local musician for a short performance
- A spoken-word artist or poet performing a piece on technology, youth, and the future
- A student innovation showcase with music in the background

- A DJ-led networking session after the launch

Best option: **a short live music or spoken-word performance after the launch**, followed by networking and photos. This keeps the event professional while adding energy and memorability.

Action Items

Action	Owner	Status
Approve programme brand name	Arthur	
Finalize certificate and diploma list	Patiance	
Confirm fees and first intake dates	Godswill	
Add launch segment to summit programme	Dr Magaya	
Prepare brochure, registration QR code, and flyer s	Godswill
