PERSONAL INFO

Nationality: Zimbabwean
D.o.B: 19 Nov 1984

CORE QUALIFICATIONS

- Artificial Intelligence
- Cybersecurity
- Digital Transformation
- Machine Learning
- Big Data Analytics
- IoT & Smart Systems
- Risk Management
- Policy Development

CERTIFICATIONS

- ✓ Certified Data Protection Officer (2025)

AFFILIATIONS

- IEEE Member
- Data Protection Network Africa

PROFESSIONAL SUMMARY

An accomplished ICT professional, researcher and academic with a PhD in Engineering Sciences and Technology, specialising in artificial intelligence, cybersecurity and digital transformation. As a Lecturer at Midlands State University and an active contributor to national technology and policy initiatives, I combine rigorous academic scholarship with practical industry and governance experience. My work in curriculum development, postgraduate supervision, publication of research outputs and national digital innovation projects has equipped me with the pedagogical competence, leadership qualities and scholarly depth required for effective university teaching, research mentorship and academic service.

CURRENT ROLES

Commissioner (Constitutional Position)	Zimbabwe Human Rights Commission	Sworn in 19 Dec 2024
Lecturer	Midlands State University	Cyber Security & Data Science
Part-Time Lecturer	University of Zimbabwe	-
Innovation Committee Member	POTRAZ	Innovation Center Board
Technology Risk & Assurance Consultant	-	-

PAST ROLES

Manager: Technology Risk & Digital Transformation	Baker Tilly	2022 - 2025
Officer	OPC	2018 - 2022
Officer (Captain)	Zimbabwe National Army	2006 - 2017

ACADEMIC QUALIFICATIONS

DEGREE	INSTITUTION	YEAR	CLASSIFICATION	AWARDS & DISTINCTIONS
PhD - Engineering Sciences and Technology	Chinhoyi University of Technology	2025	Graduated	Institute of Water and Sanitation Award; ZETDC Award
Master of Business Leadership (MBL)	Current Studies	2025-2027	In Progress	-
MSc Entrepreneurship and Innovation	Bindura University of Science Education	2025	Merit	-

DEGREE	INSTITUTION	YEAR	CLASSIFICATION	AWARDS & DISTINCTIONS
MSc Mechatronics and Artificial Intelligence	University of Zimbabwe	2025	Merit	-
Master of Leadership and Corporate Governance	Bindura University of Science Education	2023	Merit	-
MSc Big Data Analytics	Chinhoyi University of Technology	2019-2021	1st Class	-
B.Tech (Hons) Information Security and Assurance	Harare Institute of Technology	2011-2015	1st Class	6 Outstanding Awards
Diploma - Corporate Safety, Risk and Security Management	Africa Leadership Institute	2022	Merit	-
Certified Data Protection Officer	POTRAZ-HIT	2025	Certified	-

MAJOR POLICY PROJECTS

- ✓  Zimbabwe National Artificial Intelligence Strategy (Approved by Cabinet on Tuesday 14 October 2025)
- ✓  Zimbabwe Artificial Intelligence Readiness Assessment Methodology (2025)
- ✓  Zimbabwe - Ministry of Finance and Economic Development ICT Policy Draft (2024)
- ✓  Zimbabwe National Cyber Security Strategy (2024)
- ✓  Malawi Communications Regulatory Authority Regulations (2023)
- ✓  Zimbabwe National ICT Policy Review (2023)

KEY ACCOMPLISHMENTS

- ✓ Curriculum review for multiple universities including Manicalea State University, NUST, HIT, and Midlands State University
- ✓ Dissertation supervision at Masters, MPhil, and Undergraduate levels
- ✓ Spearheaded high-impact digital transformation initiatives in public and private sectors
- ✓ Improved cybersecurity resilience and business continuity planning
- ✓ Recognised thought leader, speaking at major conferences and national media
- ✓ Provided high-impact training for board directors on modern technologies

DISSERTATION SUPERVISION & RESEARCH EXPERTISE

Extensive experience in guiding and mentoring postgraduate and undergraduate students through their research journeys:

 50+ Undergraduate Dissertations

 30+ Masters Dissertations

 1 MPhil Dissertation

As an experienced academic supervisor, I have guided over 80 postgraduate and undergraduate students through their research projects across diverse fields including artificial intelligence, cybersecurity, machine learning, data analytics, and digital transformation. My supervision approach emphasizes rigorous academic standards, innovative research methodologies, and practical application of theoretical concepts. Students under my supervision have produced high-quality dissertations that have contributed significantly to their respective fields and have been recognized for their scholarly excellence.

RESEARCH & PUBLICATIONS

Google Scholar Profile Statistics

- **Total Citations:** 36
- **h-index:** 3
- **i10-index:** 1
- **Affiliation:** Midlands State University
- **Research Areas:** Cyber Security, AI, IoT, Medical Robotics, Risk Management, Digital Transformation

Complete List of Publications (24 Total)

1.

A Random Forest Classifier Model for Predicting the Impact of Viral Infections on Adults with Chronic Conditions
Authors: Fungai Jacqueline Kiwa, Martin Muduva | Venue: The 10th Annual ACIST Proceedings (2024) | Publisher: Kennesaw State University

2.

A BERT-Based Model for Classifying Customers in the Financial Sector: A case of ZB Bank
Authors: Fungai Jacqueline Kiwa, Martin Muduva | Venue: The 10th Annual ACIST Proceedings (2024) | Publisher: Kennesaw State University

3.

A Blockchain-based Patient Portal for Mental Health Management
Authors: Panashe Jhamba, Belinda Ndlovu, Sibusisiwe Dube, Kudakwashe Maguraushe, Fungai Jacqueline Kiwa, Martin Muduva | Venue: 5th African Conference on Industrial Engineering and Operations Management (2024)

4.

Optimizing Antiretroviral Therapy (ART) Adherence Through Predictive Analytics Using Machine Learning Techniques
Authors: Nyasha Winnet Chiramba, Belinda Ndlovu, Sibusisiwe Dube, Fungai Jacqueline Kiwa, Martin Muduva | Venue: 5th South American Industrial Engineering and Operations Management Conference (2024)

5.

A Comparative Study of Ensemble Classification Algorithms for Crop Yield Forecasting
Authors: Normias Matsikira, Gideon Mazambani, Martin Muduva | Journal: Advances in Machine Learning & Artificial Intelligence (AMLAI) (2025)

6.

Setting the Tone for Sound Forensic Investigations on Android-Based Social Media Platforms
Authors: Austin Makate, Martin Muduva, Naveen Kumar Chaudhary, Ronald Chiwariri | Journal: International Journal for Research in Applied Science and Engineering Technology (IJRASET) (2023)

7.

Artificial Intelligence-Driven Green Marketing Strategies for a Circular Economy
Authors: Martin Muduva, Fungai Jacqueline Kiwa | Book Chapter: Sustainable Green Marketing Strategies for a Circular Economy | Publisher: Springer (2025)

8.

Students' perceptions of ChatGPT in education: A rapid systematic literature review
Authors: S Dube, S Dube, BM Ndlovu, K Maguraushe, L Malungana, FJ Kiwa, M Muduva | Venue: Science and Information Conference (2024)

9.

AI voice assistant for smartphones with NLP techniques
Authors: FJ Kiwa, M Muduva, R Masengu | Book Chapter: AI-driven marketing research and data analytics (2024)

10.

Predictive Model for Hospital Readmission of Diabetic Patients
Authors: FJK Luyanda Mpofu, Belinda Ndlovu, Sibusisiwe Dube, Martin Muduva | Venue: 5th South American Industrial Engineering and Operations Management Conference (2024)

11.

Detection and Analysis of Android Ransomware Using the Support Vector Machines

Authors: H Ngirande, M Muduva, R Chiwariro, A Makate | Journal: International Journal for Research in Applied Science and Engineering Technology (IJRASET) (2024)

12.

AN EXPLORATORY STUDY ON BARRIERS TO GOVERNMENT 3.0 ADOPTION IN ZIMBABWE

Authors: M Muduva, G Mazambani, T Masamha, S Dube | Journal: Information Technologist (2024)

13.

Artificial Intelligence and Sustainable Agritourism for Human Development in Africa

Authors: LW Sirora, M Muduva | Book Chapter: Agritourism in Africa | Publisher: Taylor & Francis (2024)

14.

Comparative Analysis of Machine Learning Techniques for Predicting Diabetes

Authors: I Murere, B Ndlovu, S Dube, M Muduva, F Jacqueline Kiwa | Venue: International Conference on Industrial Engineering and Operations Management (2024)

15.

A Comparative Methodology of Supervised Machine Learning Algorithms for Predicting Customer Churn Using Neuromarketing Techniques

Authors: M Muduva, T Hondoma, R Chiwariro, FJ Kiwa | Book Chapter: AI-Driven Marketing Research and Data Analytics (2024)

16.

EMERGING TECHNOLOGIES IN GOVERNANCE: INSIGHTS FROM SADC NATIONS

Authors: M Muduva, G Mazambani, T Masamha, S Dube | Journal: Information Technologist (2024)

17.

Review of a Zimbabwean Smart Connected Home System

Authors: PA Wafawafa, P Tsuru, W Sithole, FJ Kiwa, M Muduva, TK Magaya | Venue: 2024 3rd IEEE Zimbabwe Conference of Information and Communication Technologies

18.

Transforming Chartered Governance Through AI and Big Data

Authors: CT Chipfumbu, M Muduva, T Tsokota | Venue: 2024 3rd IEEE Zimbabwe Conference of Information and Communication Technologies

19.

A Supervised Machine Learning Model for Predicting Adverse Drug Reactions Among Tuberculosis Patients in Zimbabwe

Authors: T Manana, FJ Kiwa, M Muduva, A Yahya, S Chinofunga | Venue: 2024 3rd IEEE Zimbabwe Conference of Information and Communication Technologies

20.

A Novel Ensemble-based Machine Learning Model for Anomaly Detection in CDRs to Identify International Revenue Share Fraud

Authors: FJK Remalia Mayeni, Subusisiwe Dube, Belinda Mutunhu Ndlovu, Martin Muduva | Venue: 7th European Conference on Industrial Engineering and Operations Management (2024)

21.

AI-based DROUGHT FORECASTING FOR PARAMETRIC INSURANCE

Authors: FJK Belinda Mutunhu Ndlovu, Malcom Tanyaradzwa Mathende, Sibusisiwe Dube, Martin Muduva | Venue: 5th South American Industrial Engineering and Operations Management Conference (2024)

22.

AI Bioelectricity Management System

Authors: Fungai Jacqueline Kiwa, Tawanda Bundukutu, Thoko Matnell Mawoyo, Batsiranai Linda Chiduku, Martin Muduva, Belinda Ndlovu | Venue: The 10th Annual ACIST Proceedings (2024)

23.

Aircraft Identification Using Machine Learning

Authors: M Khumalo, M Muduva, E Tarambiwa, V Musanga, R Chiwariro | Journal: International Journal of Advanced Computer Science and Applications (IJACSA) (2023)

24.

An Artificial Intelligence Mechanism for the Prediction of Signal Strength in Drones to IoT Devices in Smart Cities

Authors: Martin Muduva, et al. | Journal: International Journal of Advanced Computer Science and Applications (IJACSA) (2023)

KEY PRESENTATIONS & SPEAKING ENGAGEMENTS

- ✓ National Cyber Security Conference (HICC – October 2025)
- ✓ Data Privacy Symposium (Elephant Hills - 2025)
- ✓ Digital Economy Conference (ZITF 2024)
- ✓ Conversations on CapiTalk FM (Technology Issues)
- ✓ Expert opinion on ZBC TV on technology issues
