

Demo Documents for ChatGPT Insurance Workflows

Use these two sample documents for examples and a live demo of the workflows: **Underwriting Support** and **Claims Handling**.

Document 1: Underwriting Submission Pack

Client

Name: Sunrise Foods Manufacturing (Pvt) Ltd

Industry: Food processing and packaging

Location: Harare Industrial Area, Zimbabwe

Years in operation: 12

Employees: 86

Requested cover: Property, business interruption, public liability, goods in transit, and machinery breakdown

Business overview

Sunrise Foods Manufacturing produces packaged maize meal, flour blends, and snack products for wholesale and retail distribution. The company operates from a leased industrial facility with production, packaging, storage, and dispatch areas.

The business runs two production shifts from Monday to Saturday. Finished goods are stored on-site for an average of 7 to 14 days before dispatch. The company distributes to supermarkets, wholesalers, and small retailers using a mix of owned vehicles and third-party transporters.

Property details

- Main building: brick under steel roofing
- Approximate total floor area: 3,800 square metres
- Occupancy: food processing, packaging, storage, and administration
- Lease term remaining: 3 years
- Nearest fire station: approximately 8 km away
- Fire extinguishers: present, last serviced 11 months ago
- Fire detection system: smoke detectors in office area only
- Sprinkler system: none
- Security: perimeter wall, night guard, CCTV at entrance and dispatch area

Values declared

Asset category	Declared value
Buildings improvements	USD 120,000
Plant and machinery	USD 680,000
Stock and raw materials	USD 310,000
Office contents	USD 45,000
Business interruption gross profit	USD 950,000

Claims history

Year	Claim type	Amount	Notes
2023	Machinery breakdown	USD 18,500	Mixer motor failure
2024	Goods in transit	USD 9,200	Vehicle accident during delivery
2025	Fire damage	USD 36,000	Electrical fire in packaging area

Risk notes from broker

The client has expanded production capacity by adding two packaging lines. Electrical load has increased, but the latest electrical compliance certificate has not yet been provided. The broker notes that housekeeping has improved since the 2025 fire incident, although there are still combustible packaging materials stored near one production line.

The client requests competitive pricing and is willing to accept a higher deductible for machinery breakdown if premium savings are material.

Documents received

- Completed proposal form
- Asset schedule
- Claims history summary
- Site photos
- Lease agreement summary
- Business interruption worksheet

Missing or unclear information

- Updated electrical compliance certificate
- Fire extinguisher service certificate
- Details of third-party transport arrangements

- Confirmation of stock valuation basis
- Maintenance logs for key production machinery
- Confirmation of whether night shifts are supervised by senior staff

Underwriting demo prompt

Use this prompt during the live demo:

Review this underwriting submission and produce: 1) an underwriting summary, 2) key risk factors, 3) missing information, 4) recommended broker follow-up questions, and 5) a draft underwriting memo with recommended terms, exclusions, and pricing considerations. Make clear that a human underwriter must make the final decision.

Document 2: Claims File Pack

Claim reference

Claim number: CLM-2026-0418

Policyholder: Sunrise Foods Manufacturing (Pvt) Ltd

Policy type: Commercial property and business interruption

Date of loss: 18 April 2026

Date reported: 19 April 2026

Loss location: Packaging area, Harare Industrial Area

Estimated loss: USD 74,600

Incident summary

The insured reported fire and smoke damage in the packaging section following an electrical fault in a sealing machine. The incident occurred at approximately 21:40 during the evening production shift. Staff used fire extinguishers to control the fire before the municipal fire brigade arrived.

The fire damaged one sealing machine, packaging stock, electrical cabling, and a section of the internal wall. Smoke affected adjacent finished goods stored near the packaging area. Production was interrupted for three days while cleaning and temporary repairs were completed.

Timeline

Date/time	Event
18 Apr 2026, 21:40	Staff noticed sparks and smoke from sealing machine
18 Apr 2026, 21:45	Shift supervisor ordered evacuation of packaging area
18 Apr 2026, 21:50	Staff used extinguishers to contain fire

Date/time	Event
18 Apr 2026, 22:15	Fire brigade arrived
19 Apr 2026, 08:30	Broker notified insurer
20 Apr 2026	Loss adjuster appointed
22 Apr 2026	Initial site inspection completed
23 Apr 2026	Insured submitted preliminary loss estimate

Documents received

- Claim notification form
- Site photos
- Fire brigade attendance note
- Preliminary repair quote
- Stock loss estimate
- Production downtime estimate
- Statement from shift supervisor

Documents outstanding

- Final loss adjuster report
- Electrical technician report
- Machinery maintenance records
- Stock purchase invoices
- Salvage assessment
- Final business interruption calculation
- Confirmation of policy excess and applicable sub-limits

Policy wording extract for demo

The policy covers accidental physical loss or damage to insured property, subject to policy terms, conditions, exclusions, limits, and deductibles.

Relevant conditions include:

- The insured must take reasonable precautions to prevent loss or damage.
- Electrical installations and machinery must be maintained in safe working condition.
- Claims must be notified as soon as reasonably practicable.
- The insurer may request supporting invoices, reports, and evidence of value.

Relevant exclusions include:

- Wear and tear, gradual deterioration, and lack of maintenance.
- Consequential loss unless insured under the business interruption section.

- Loss arising from deliberate acts by the insured.

Possible issues to test in demo

- Whether the electrical fault resulted from sudden accidental damage or poor maintenance
- Whether stock affected by smoke is a total loss or partially salvageable
- Whether the three-day production interruption falls within the business interruption cover
- Whether the insured complied with reasonable precautions and maintenance conditions
- Whether the outstanding documents are necessary before settlement recommendation

Claims demo prompt

Use this prompt during the live demo:

Review this claims file and produce: 1) a claim file summary, 2) a timeline of events, 3) key claim data, 4) documents received and missing, 5) possible coverage issues, 6) inconsistencies or questions for the claims handler, and 7) a draft response to the broker requesting outstanding documents. Make clear that a human claims handler must make the final decision.
