RE: AI Training Program Delivered in Partnership with Rubiem Intelligence & University of Zimbabwe

Dear Sir/Madam,

We are pleased to submit this cover letter in reference to the expression of interest for the Artificial Intelligence (AI) training program to be conducted for the Zimbabwe Electricity Supply Authority (ZESA).

The training will be delivered by **AI Institute Africa** in strategic partnership with **Rubiem Intelligence** and the **University of Zimbabwe (UZ)**. This initiative is designed to equip ZESA personnel with practical knowledge and skills in artificial intelligence, with a focus on real-world applications relevant to the energy and utilities sector.

The program will cover key areas, including Executive-relevant AI fundamentals, productivity impact, AI strategy and leadership, and the application of AI technologies to improve operational efficiency, predictive maintenance, and service delivery. Participants will engage in both theoretical learning and hands-on sessions, ensuring a well-rounded and impactful training experience.

This partnership will bring together academic excellence, industry expertise, and innovative delivery approaches to ensure high-quality outcomes. We are confident that the knowledge and skills gained will support ZESA's ongoing digital transformation and innovation efforts.

We will appreciate the opportunity to collaborate with ZESA and remain available for any further support, advanced training, or implementation initiatives.

Please do not hesitate to contact us should you require any additional information.

Yours faithfully,

Dr Dennis Magaya

Chairman – AI Institute Africa
