

PROCUREMENT OFFICER EVALUATION & NEGOTIATION BRIEF

TO: Project Evaluation Committee
FROM: Pia, Procurement Officer
DATE: July 13, 2026
RE: Track 3 Development Proposal Evaluation & Negotiation Strategy: NeuroWorks AI Digital Workforce

1. Structured Evaluation & Scorecard

This evaluation is based on the *NeuroWorks AI/ Track 3 Development Proposal* [Attachment 1] and the *Terms of Reference (ToR) for Track 3 Development* [Attachment 2]. The proposal has been scored across five core procurement criteria.

Evaluation Criterion	ToR Requirement [Attachment 2]	Proposal Assessment [Attachment 1]	Score (1-5)	Weighted Score
Strategic Alignment (25%)	Alignment with Zimbabwe National AI Strategy & NDS2 (2026–2030).	Strong alignment with NDS2 Priority 5 (Science, Tech, Digital Innovation) and National AI Strategy (sovereignty, local inference, and governance) [Attachment 1: 1.4].	5 / 5	1.25 / 1.25
Technical Design (30%)	Robust, secure, and scalable architecture with clear data sovereignty.	Three-layer architecture (PostgreSQL, Qdrant, Ollama, Redis). Local inference (62.7% on consumer GPU) ensures sovereignty [Attachment 1: 1.4, 2.1].	4 / 5	1.20 / 1.50
Compliance & Security (20%)	Pre-execution policy enforcement, audit trails, and data encryption.	Excellent compliance mechanics: mandatory Human-in-the-Loop (HITL), pre-execution policy checks, and AES-256-GCM encryption [Attachment 1: 1.1, 1.4].	5 / 5	1.00 / 1.00
Target User Relevance (15%)	Clear identification of local target users and sector-specific utility.	Highly specific Zimbabwe-market targets across Finance (RBZ, EcoCash), Agri (Pfumvudza, GMB),
